ABOUT THE EDITOR

Joel M. Haight, Ph.D., P.E., is Branch Chief of the Human Factors Branch at the Centers for Disease Control and Prevention (CDC) National Institute of Occupational Safety and Health (NIOSH) at their Pittsburgh Office of Mine Safety and Health Research. Previously, he was Associate Professor of Energy and Mineral Engineering at the Pennsylvania State University. He also worked as a manager and engineer for the Chevron Corporation domestically and internationally for eighteen years prior to joining the faculty at Penn State. He received a Ph.D. (1999), and Master’s degree (1994) in Industrial and System Engineering, from Auburn University. Dr. Haight’s research interests are in human error, process optimization, and intervention effectiveness research. He is a professional member of the American Society of Safety Engineers (where he serves as Federal Liaison to the Board of Trustees and the ASSE Foundation Research Committee Chair), the American Industrial Hygiene Association (AIHA), and the Human Factors and Ergonomics Society (HFES). He has published more than 30 peer-reviewed scientific journal articles and book chapters and is a co-author and the editor-in-chief of ASSE’s The Safety Professionals Handbook and the Handbook of Loss Prevention Engineering, published by John Wiley & Sons.

ABOUT THE AUTHORS
