RE: BISE Sponsorship

Dear Sponsor,

On behalf of Blacks in Safety Engineering (BISE), a Common Interest Group of the American Society of Safety Engineers, I’d like to thank you for considering supporting our group. BISE depends on contributions like yours to provide programming that advances diversity and the leadership, collaboration, recognition and promotion of black occupational safety and health professionals. Our volunteers work to help each other grow through leadership activities, professional development offerings, mentorship, as well as working together to bring more young people of color into the vibrant safety community. While most BISE members are located in the United States, it boasts members across the world, including but not limited to Nigeria and the Middle East.

BISE’s membership has continued to grow over the years, now with over 780 members. We expect these numbers to continue to grow as we head toward the 2016 ASSE Professional Development Conference. We expect to have 150+ professionals at our networking event, where we will have an open reception bringing together leaders of all colors to network and catch up on the work that BISE is doing to advance occupational safety and health. By sponsoring BISE activities you can expect to reach hundreds of individuals in attendance at the PDC as well as thousands more through ASSE’s websites and social media, including BISE social media.

We aim to accommodate a diverse population of sponsors and have provided you with an overview of Sponsor Benefit Levels on the following page.

Again, thank you very much for your support – we look forward to keeping you updated on our activities!

Best wishes,

Patricia Reed
BISE Administrator
