The Body of Knowledge (BOK) is dedicated to creating a living reference that represents the collective knowledge of the safety, health and environmental (SH&E) profession. The BOK is the wisdom, experience, processes and facts that both inform the profession and provide a solid foundation from which continuous improvements and innovative change can occur. Competency, collaboration and credibility for the SH&E professional are the outcomes of these efforts.

The BOK builds upon the success of many resources and makes them available in a searchable, interactive database. Dozens of contributors, including writers, editors and peer reviewers, are currently updating and enhancing the BOK every day. The BOK project is ongoing, and the Society looks forward to your contributions as an SH&E practitioner as well.

**HOW TO CONTRIBUTE:**

1. Visit www.safetybok.org
2. Contact Tim Fisher at tfisher@asse.org
