Sixteen Credits That Require Contractors to Perform Exactly the Same Work as in non-LEED Buildings

- Sustainable Sites (SS) Prerequisite 1: Construction Activity Pollution Prevention
- SS 3: Brownfield Redevelopment
- SS 4.2: Alternative Transport—Bicycle Storage and Changing Rooms
- SS 4.3: Alternative Transportation—Low-Emitting and Fuel Efficient Vehicles
- SS 6.1: Storm Water Design—Quantity Control
- SS 6.2: Storm Water Design—Quality Control
- Water Efficiency (WE) 2: Innovative Wastewater Technologies,
- EA 1: Optimize Energy Performance
- EA 4: Enhanced Refrigerant Management
- Materials and Resources (MR) Prereq 1: Storage and Collection of Recyclables
- IEQ Prereq 1: Minimum IAQ Performance
- IEQ 2: Increase Ventilation Effectiveness
- IEQ 3.1: Construction IAQ Management Plan during Construction
- IEQ 5: Indoor Chemical and Pollutant Source Control
- IEQ 7.1: Thermal Comfort Design.
