ACADEMICS
Promotes the advancement of SH&E education, influences academic accreditation, professional certification, and national and international research.

CONSTRUCTION
Focuses on jobsite, equipment safety, health and environmental activities, including contractor and subcontractor relations and contracts.

Utilities Branch
Addresses SH&E issues within electrical, solar and wind generation, natural gas transmission and distribution, water/wastewater, telecommunications, public works and other utility areas. To participate, join the Construction Practice Specialty.

CONSULTANTS
Provides information and ideas to help consultants excel. Also supports an online directory of safety consultants.

Legal Services Branch
For anyone concerned with legal policy or those functioning as legal professionals, expert witnesses or forensic specialists. To participate, join the Consultants Practice Specialty.

ENGINEERING
Focuses on safety engineering, technical expertise and standards development.

ENVIRONMENTAL
Focus includes environmental management, water and air quality, solid and hazardous waste, emergency planning and response practices, chemicals and toxicology, legislative and regulatory monitoring, and expert testimony and resources.

Agricultural Branch
Provides a forum for agricultural issues affecting production operations of all sizes, such as tractor safety, noise exposures and bin entry. To participate, join the Environmental Practice Specialty.

FIRE PROTECTION
Provides support for fire protection, prevention, preparedness and mitigation of emergencies in the workplace. This practice specialty also applies to those involved in life safety, emergency action planning, and post-incident recovery.

HEALTHCARE
Serves the comprehensive healthcare field of safety professionals working in healthcare facilities and in industrial and corporate occupational health settings. Provides insights into professional practice issues, ergonomic concerns, regulatory issues, and emergency response strategies for trauma or disaster situations.

Health & Wellness Branch
Focuses on the connection between wellness and safety. To participate, join the Healthcare Practice Specialty.

INDUSTRIAL HYGIENE
Focuses on IH services. Monitors regulatory issues, laboratory methodologies, and training and education opportunities.

INTERNATIONAL
Addresses global SH&E issues through an exchange of international safety technology, research, and best practices.

Military Branch
This Branch is intended for those in active duty, working in a civilian capacity or affiliated government agencies. To participate, join the International Practice Specialty.

INFORMATION

MANUFACTURING
Provides a forum for various industry-specific issues in manufacturing facilities, such as, metalworking, timber and lumber working, food processing, chemical, rubber and plastics, printing and publishing locations.

MINING
Links all safety professionals working in or for the mining industry, including surface and underground operations, both metal and non-metal production, and related processing operations.

OIL & GAS
Equips members in the petrochemical, pipeline, and marine industries with best practices and monitors legislative and regulatory issues.

PUBLIC SECTOR
Fosters communication among professionals working for governmental agencies and facilities in urban, suburban and rural communities.

RISK MANAGEMENT / INSURANCE
Serves the interests of risk managers and insurance/loss control specialists specializing in critical risk areas, violence in the workplace, and crisis management.

Training and Communications Branch
Focuses on training issues such as certification programs, instructional design, adult learning principles, best practices and the development of effective training and communications. To participate, join the Risk Management/Insurance Practice Specialty.

TRANSPORTATION
Encompasses all modes of transportation: such as ground, air, fleet and rail. Focuses on the hazards of distracted driving. Monitors legislative and regulatory issues.
