Seminar: Jan. 29-26
Join ASSE in Las Vegas for Seminar, a week-long event that provides a comprehensive overview of current practices for the health and safety professional. This year's seminar features a wide range of speakers and topics, including occupational health and safety, measurement, safety management approaches, as well as occupational and technical issues for a variety of industries. Seminars are sponsored by International Institute for Health and Safety, with a focus on ergonomics, confined-space and fall protection.

ASSE Region III Announces New SHMS Scholarships for Students
ASSE Region III is proud to name the winners of their Region III Scholarships. This year's recipients will receive a total of $20,000 in scholarship money. The recipients were selected based on academic excellence, leadership potential, and a commitment to the field of safety. Congratulations to all the winners.

ASSE Webinars Offer Convenient Learning Experience
ASSE's webinar series combines instructor-led training with convenient on-demand delivery for an easy, accessible learning experience. The series covers a range of topics, from workplace safety to industry-specific training. Past webinars have included discussions on the effects of the pandemic on the construction industry, as well as best practices for maintaining a safe workplace. Upcoming webinars include "Human Factors and Safety Practice," presented by the American Institute of Chemical Engineers, and "Injury Prevention in the Workplace," presented by the National Institute for Occupational Safety and Health.

More information on ASSE's webinar series can be found on their website. The next webinar is scheduled for October 12, and will feature a presentation on "The Role of Technology in Safety Management."

In Summary
ASSE's education programs provide a valuable resource for safety professionals. Whether through seminars, webinars, or conferences, ASSE offers a range of opportunities to stay informed and connected with the latest developments in the field. These programs are designed to help individuals advance their careers and contribute to the overall safety of the workplace.
