

Application For ASSE Foundation Grant

Project Date _____

Title of Proposal

Name of principal investigator

Current title/position

Institution/Organization

Address

Fax

Phone

E-mail

Please complete items 1-10 below as clearly as possible.

1. Which ASSEF priority funding area does this proposed investigation address?

2. Provide an abstract for the proposed project structured as follows:

- A. Study purpose with hypothesis or research questions addressed:**
- B. Introduction/Literature Review/Rationale (What is known/what is unknown/how this study will fill the gap):**
- C. Project Objectives (at least 3):**
- D. Study Method (include research setting, tasks performed by the subjects, sample demographics, sampling technique, power calculations (if appropriate):**
- E. If human subjects are involved, demonstrate IRB (or equivalent) approval:**
- F. Statistical Design & Analysis Plan:**
- G. Quality assurance narrative (the intended use of the data and associated acceptance criteria of data quality):**

3. Describe 3 benefits to the SH&E field which can be applied NOW in the field, that is, move the findings of your study to practice in the field.

Then describe any follow-up research that may derive from your project.

4. Attach the abstract for 3-5 articles cited in your literature review as most pertinent to your project and provide a paragraph of comparison of your study to the above cited research showing how your study goes beyond research done to date and is therefore expected to provide new information.

5. Attach a one page Vita that includes your education, current employment, relevant peer reviewed grants, papers and presentations for the last 5 years.

6. If granted an ASSE Foundation Grant, I (insert your name) _____ will submit a final paper of research within 90 days of its completion to the ASSE Foundation for publication in the Journal of Professional Safety (PS).

In addition, at conclusion of research project, I (insert your name) _____ agree to provide a detailed report of expenses.

- A. If my paper/study is too lengthy for the PS Journal publication, I (insert your name) _____ will provide an abbreviated paper (3 to 5 pages) emphasizing the application aspects of the study.
 - B. If this study is later published or presented in other venues I (insert your name) _____ will provide appropriate credit to the ASSE Foundation and will so inform the ASSEF of such citation.
-

7. What plans do you have for disseminating results (Check all that apply):

- Journal article Book chapter White paper
Conference Proceeding Other (describe)
-

8. Please indicate the following:

- Other sources of funding currently provided for completing this work.
 - Other sources of funding for which you are currently applying.
 - Other sources of funding successfully completing this work might encourage.
-

9. Please complete the budget sheet below.

10. Please create and attach a timeline indicating months from the receipt of the award, for each of the major milestones you plan to accomplish in your project.

11. Please attach a writing sample of past research in which you were the primary author (up to 3 pages).

PROPOSED BUDGET

Primary Investigator

Project Title

Project Date

Please do not inflate the required budget with unwarranted expenses to reach the \$20,000 award level. Specific scrutiny will be directed to administrative (direct or indirect) charges in excess of reasonable costs consistent with other expense components. Tuition for graduate assistants is not considered a warranted expense.
