Foundation Scholarships – Investment in Future Paying Dividends

Denise R. Ditmore,
EH&S Specialist
Synthes (USA)

I graduated from Millersville University, went on to earn my M.S. at the Indiana University of Pennsylvania in Safety Sciences and began working at Synthes (USA). I am a part-time faculty member at Millersville University teaching *Occupational Safety & Hygiene Program Management*. I am enrolled in Widener University's Doctorate of Education program, specializing in *Higher Education & Leadership*. I plan to apply this degree to a full-time teaching position in a college level safety education program. The support of the Foundation was vital to my current success as a safety professional –it assisted me in pursuing my education.

Denise R.
Ditmore

Brian A. Marcyjanik
Safety Manager
Huck International, Inc.

I passed the ASP exam, graduated Summa Cum Laude (3.95), worked for the FMC Corporation in Orlando, FL and completed an internship with the Neville Chemical Company in Pittsburgh. This award allowed me to focus on academics and passing the ASP exam, rather than struggling with finances. I continue to pursue a career in safety because it's very rewarding to help reduce the number and magnitude of injuries in the workplace.

Brian A.
Marcyjanik

Rebecca St. Clair
Environmental Safety Manager
Towson University

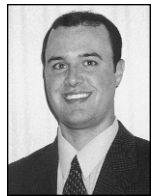

I graduated Summa Cum Laude from the Indiana University of Pennsylvania. Upon completion of my internship at the Johns Hopkins University Applied Physics Laboratory, I started working at Towson University. This award enabled me to successfully complete my safety degree without financial concerns. The profession is dynamic and presents daily challenges. I enjoy working with people to ensure their safety concerns are addressed and that regulatory issues are fulfilled.

Rebecca
St. Clair

Matthew Looker
OSHA Specialist, COMAIR
Corporate Safety
COMAIR, DELTA Connection

I completed an internship with Pratt & Whitney Engine Services in Bridgeport, WV, participated in a silica research study at NIOSH, Morgantown, WV and accepted a safety position at The George Washington University in Washington, D.C. The award provided me with the financial support to explore employment in nearby states, allowed me to help publicize the ASSE chapter at Fairmont State College and enabled me to enhance my portfolio to prospective employers. I continue to pursue a safety career because it provides me with the opportunity to improve the quality of life for the workforce, creates an economic incentive for top management, provides me with the opportunity to interact with front line workers and executive level management and lastly, allows me to benefit from being an internal resource on health and safety issues for a large corporation.

Matthew
Looker

DAIMLERCHRYSLER

DaimlerChrysler Corporation Fund

A Win-Win for the Safety Profession

DaimlerChrysler and the Foundation have formed a win-win partnership that continues to benefit our members and the safety profession. We are pleased to announce that the DaimlerChrysler Corporation Fund has renewed their support of the Foundation with a second gift of \$25,000.

DaimlerChrysler's commitment to workplace safety

and health goes beyond their cash contribution to the Foundation. Each year, DaimlerChrysler develops new car safety features and works to protect the environment. Last year, the company hired one of the Foundation's scholarship winners and ASSE member Diana Franck. Diana is now working as a Plant Ergonomist at the Newark, DE assembly plant, where the Dodge Durango is assembled.

This win-win partnership serves the Foundation and DaimlerChrysler well. Both organizations make their commitment to safety and the profession a top priority. Through their gift, the company enables the Foundation to provide scholarships to those studying safety and health as well as research grants whose results can ultimately benefit DaimlerChrysler, its workers and consumers.

AWARD OPPORTUNITIES 2001

OVER \$30,000 IN SCHOLARSHIPS . . .

UNDERGRADUATE PROGRAMS:

UPS Scholarship

Six awards @ \$4,125

Robert Semonisck Distinguished Service Award Scholarship

One award @ \$2,000

Marsh Risk Consulting Scholarship

Two awards @ \$1,000

GRADUATE PROGRAMS:

James P. Kohn Memorial Scholarship

One award @ \$2,000

Thompson Scholarship for Women in Safety

One award @ \$1,000

To apply for any scholarship, please request a copy of the faculty letter with an application through our Customer Service Department at 847.699.2929, or visit our website at www.asse.org/founscho.htm. **Filing deadline is November 1, 2000.**

Submitted applications will be reviewed by the ASSE Foundation Scholarship Award and Selection Committee. Winners will be notified by January 15, 2001.

RESEARCH FELLOWSHIPS:

The Foundation and the Liberty Mutual Research Center (LMRC) are offering two safety research fellowships at the LMRC in Hopkinton, Massachusetts during the summer of 2001. The program is designed to encourage research activity in safety; expand and stimulate participants' understanding of safety research; and provide a forum for linking safety professionals, industry needs, and quality research programs.

This program will be open to anyone with an interest in safety research. To obtain a copy of the **Guidelines** and **Applicant Instruction Sheet**, please visit our website at www.asse.org/foundat.htm or contact ASSE's customer service department at 847.699.2929. **Application deadline is April 1, 2001.**

\$20,000 IN RESEARCH GRANTS . . .

Researchers have an opportunity to submit a safety or health research proposal for a grant not to exceed \$10,000. Grants will be awarded according to the schedule below.

Deadline for Submittal

November 1, 2000

May 1, 2001

Grant Issued

December 1, 2000

June 1, 2001

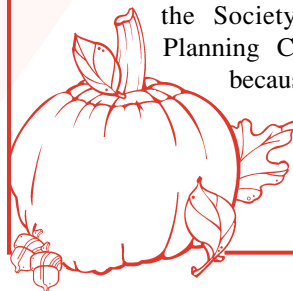

Submissions on the following topics are particularly welcomed!

- Effective interventions for prevention of traumatic injuries
- Effectiveness of incentive programs
- Developing management commitment to safety/risk control
- Criteria to measure risk control effectiveness
- Effective safety programs for temporary workers
- "Proactive" incorporation of risk-control principles in early design of facilities, processes and management systems
- Study cultures within organizations with out-standing safety records

To obtain an application, visit our website at www.asse.org/foundat.htm or contact our Customer Service Department at 847.699.2929.

Foundation Co-Sponsors Student Leadership Conference

The Foundation will be co-sponsoring the ASSE Student Leadership Conference (SLC) on Oct 21-22 in Providence, RI. This two-day event will provide leadership skills & training to ASSE student member leaders and valuable information about the Society's functions and goals. The SLC Planning Committee finds this event valuable because it provides a sense of community to future safety professionals and helps to groom ASSE's future leaders. The committee expects more than 75 attendees.

Donor List

This list reflects donations and pledges of \$50 or more made between January 1, 2000 and September 6, 2000. ASSEF gratefully acknowledges the following contributors for their generous support. Their commitment to the Foundation is appreciated.

Corporations:

Visionary (\$15,000+)

DaimlerChrysler Corporation Fund
Liberty Mutual Research Center

Donor Spotlight

"As a professional member of the Society and a practicing safety professional, I believe the role of the Foundation is

vital to the future of the profession as well as the Society. The Foundation enables the profession, represented by the Society, not the government or employers, to identify issues worthy of research or support. As the Foundation grows and matures it enables the Society, working with donor organizations, to have greater influence on how issues of current and emerging interest to the membership and the public, will be addressed."

*John H. Cheffer, P.E., CSP
Manager Regulatory Compliance; Loss Prevention & Engineering Division
Travelers Property Casualty Corporation
ASSE Member Since 1963*

"Through the ASSE Foundation, I know my monies will be used to give back to the profession through their safety research and scholarships."

*Casey A. Conway, CSP
Health & Safety Supervisor
Tosco Refining Company
ASSE Member Since 1978*

COUNT ON MY SUPPORT FOR OUR ASSE FOUNDATION

Please Complete

Name _____ Member Number _____
Address _____
City, State & Zip Code _____

I/we want to support the ASSE Foundation with a tax-deductible gift of:

Ongoing Support

I would like to lend my support to the ASSE Foundation on an ongoing basis. Please bill my credit card (listed above) \$ _____ on a

monthly quarterly basis for the next year.

The ASSE Foundation, established to enhance the long-range future of the safety and health profession, is exempt from taxation under section 501(c)(3) of the Internal Revenue Code (IRC). Generally, contributions to the ASSE Foundation are considered charitable contributions under IRC section 170 and are tax deductible as provided by law. Consult your tax advisor with any questions.

Summit – Taking the Foundation to New Heights

Michigan-based Summit Training Source Inc. awarded a \$25,000 grant to the ASSE Foundation to support research grants, educational programs, and scholarships aimed at supporting the advancement and continued growth of the safety profession.

Summit joins the ranks of other corporate donors which are committed to workplace safety and education by supporting the ASSE Foundation. The grant will be put toward many of the Foundation's programs which will increase the public's safety through programs such as the Academic Scholarships for college graduates and undergraduates, and the Research Fellowship awards. In addition, the Foundation funds safety research and professional development in the health and safety field.

"Over the years, contributions from safety-focused organizations such as Summit have helped over 50 students around the country pursue their academic studies, supported several key research projects and supported the development of accredited degree programs throughout the country," ASSE Foundation Trustee Karl A. Jacobson, CSP, said today. "We commend Summit Training for their continued efforts to promote workplace safety and health, and for giving many the opportunity to continue their education research. This benefits everyone."

"We support the Foundation in its mission to help bring about advancements in the safety field," Summit Founder and President Valerie Overheul said. "We hope this grant will help make a difference in the safety field, such as advancements in technology and better understanding of the safety profession." Summit, established in 1981, is a company dedicated to developing and distributing environmental, health and safety training in multiple formats. Summit covers many of the diverse topics of the safety field such as road rage, heat stress, air emissions and hand safety. Overheul made the decision to become a Foundation donor to bring about further improvement in health and safety.

Put the Foundation in Your Will

Did you know that you can make a gift to the ASSE Foundation through your will?

Your gift will ensure the perpetuity of the Foundation and the safety profession. The Foundation has sample wording you may use to donate cash, property or investments to ASSEF through your estate. For more information, complete the coupon (on page 3) and a Foundation representative will respond. You may also find this information on our web site at www.asse.org/foundat.htm.

Visit our website at
www.asse.org/foundat.htm
for the latest annual financial report.

The Foundation's mission is to support the advancement of the safety profession and to protect the safety and health of all Americans.
