

ACADEMICS

Promotes the advancement of SH&E education. Influences academic accreditation, professional certification, and national and international research.

FIRE PROTECTION

Provides support for fire protection, prevention, preparedness and mitigation of emergencies in the workplace. This practice specialty also applies to those involved in life safety, emergency action planning, and post-incident recovery.

MANUFACTURING

Provides a forum for various industry-specific issues in manufacturing facilities, such as, metalworking, timber and lumber working, food processing, chemical, rubber and plastics, printing and publishing locations.

CONSTRUCTION

Focuses on jobsite, equipment safety, health and environmental activities, including contractor and subcontractor relations and contracts.

Utilities Branch

Addresses SH&E issues within electrical, solar and wind generation, natural gas transmission and distribution, water/wastewater, telecommunications, public works and other utility areas. To participate, join the Construction Practice Specialty.

HEALTHCARE

Serves the comprehensive healthcare field of safety professionals working in healthcare facilities and in industrial and corporate occupational health settings. Provides insights into professional practice issues, ergonomic concerns, regulatory issues, and emergency response strategies for trauma or disaster situations.

Health & Wellness Branch

Focuses on the connection between wellness and safety. To participate, join the Healthcare Practice Specialty.

MINING

Links all safety professionals working in or for the mining industry, including surface and underground operations, both metal and non-metal production, and related processing operations.

CONSULTANTS

Provides information and ideas to help consultants excel. Also supports an online directory of safety consultants.

Legal Services Branch

For anyone concerned with legal policy or those functioning as legal professionals, expert witnesses or forensic specialists. To participate, join the Consultants Practice Specialty.

INDUSTRIAL HYGIENE

Focuses on IH services. Monitors regulatory issues, laboratory methodologies, and training and education opportunities.

OIL & GAS

Equips members in the petrochemical, pipeline, and marine industries with best practices and monitors legislative and regulatory issues.

ENGINEERING

Focuses on safety engineering, technical expertise and standards development.

INTERNATIONAL

Addresses global SH&E issues through an exchange of international safety technology, research, and best practices.

Military Branch

This Branch is intended for those in active duty, working in a civilian capacity or affiliated government agencies. To participate, join the International Practice Specialty.

PUBLIC SECTOR

Fosters communication among professionals working for governmental agencies and facilities in urban, suburban and rural communities.

ENVIRONMENTAL

Focus includes environmental management, water and air quality, solid and hazardous waste, emergency planning and response practices, chemicals and toxicology, legislative and regulatory monitoring, and expert testimony and resources.

Agricultural Branch

Provides a forum for agricultural issues affecting production operations of all sizes, such as tractor safety, noise exposures and bin entry. To participate, join the Environmental Practice Specialty.

MANAGEMENT

Focuses on management's role in safety programs and safety leadership.

Human Resources Branch

Focuses on fostering a strong safety culture, recruiting with safety in mind and HR's different functions within corporate safety. To participate, join the Management Practice Specialty.

Service Branch

Addresses safety within lodging, restaurants, theme parks, resorts, retail and other service and hospitality industries. To participate, join the Management Practice Specialty.

RISK MANAGEMENT / INSURANCE

Serves the interests of risk managers and insurance/loss control specialists specializing in critical risk areas, violence in the workplace, and crisis management.

Training and Communications Branch

Focuses on training issues such as certification programs, instructional design, adult learning principles, best practices and the development of effective training and communications. To participate, join the Risk Management/Insurance Practice Specialty.

ERGONOMICS

Focuses on ways to reduce soft-tissue injuries in the workplace, prevention strategies, tips and best practices.

TRANSPORTATION

Encompasses all modes of transportation: such as ground, air, fleet and rail. Focuses on the hazards of distracted driving. Monitors legislative and regulatory issues.
