

# AIHA Perspective: Challenges & Opportunities

Prevention Through Design Conference

Washington, DC

Wednesday August 24, 2011

# Overall AIHA Perspective

- PtD aligns with our Strategic Plan, Vision & Goals
- Ultimately PtD will help to Protect Worker Health

# AIHA Value Strategy

- Goal – Align risk management with business objectives
- Challenges:
  - Integrate of IH in design process
  - Validate strategy with business leaders
- Opportunities:
  - Develop tools to address IH issues in capital project planning

# Exposure Risk Assessment

- Goal – Utilize IH knowledge of exposure as basis for PtD strategies
- Challenges:
  - Integrate use of risk assessment approaches and historical data
- Opportunities:
  - Connect OELs, Hazard Banding, exposure reconstruction, etc. to design process

# Knowledgeable Professionals

- Goal – Ensure IH/EHS professionals have the appropriate skill sets
- Challenges
  - Broadening of educational preparation and job expectations
- Opportunities
  - Refine expectations for degree programs, accreditations, certification exams, etc.
